Capstone: Project Proposal Rubric

Learning Objective

- Finalize one of your capstone ideas based on the feedback and discussions with your mentor.
- Write a proposal that identifies a real-world problem and an approach to solve it.

| Criteria | Meets Expectations |
|---------------------------|---|
| Completion | <input type="checkbox"/> 1-2 page google document (commentable by mentor) |
| Process and understanding | <input type="checkbox"/> The submission demonstrates that the student has articulated a problem statement that is within the scope of this course. <input type="checkbox"/> The submission demonstrates that the student has selected a problem with a dataset that supports the problem statement. <input type="checkbox"/> The submission addresses all substeps of the Problem Identification step of the DSM. |
| Presentation | <input type="checkbox"/> The proposal is clear and follows in a logical flow. <input type="checkbox"/> The final submission will be a PDF document submitted to the associated Github repo. |
